## Projector Mounts & Stands

LPT offers a variety of mounting fixtures manufactured exclusively for laser alignment systems. From wall and ceiling brackets to moveable stands and gantries, LPT can provide a stable platform for your system.

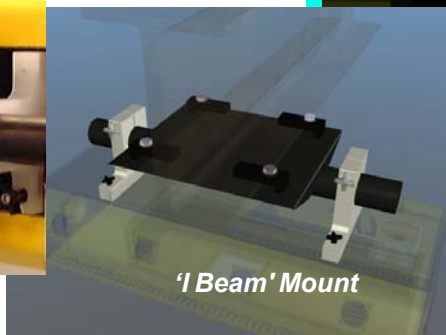

*Fixed or Rotating Dual Projector Stand*

The LPT **Rotating Fixed Platform** is designed to be installed in a permanent location and provide 360 degrees of rotation. For large scale operations our **Overhead Gantry** may be required. This mounting platform is capable of securing several projectors simultaneously.

The LPT **'Tip / Tilt'**, **'I Beam'** or **'Motorized Power Mounts'** can be adapted to any of LPT's projector heads. The Motorized Power Mount is a remote controlled, projector tilt system for repositioning the projector in one axis when the projector is mounted in high or difficult areas to access.

*'Tip / Tilt' Mount*

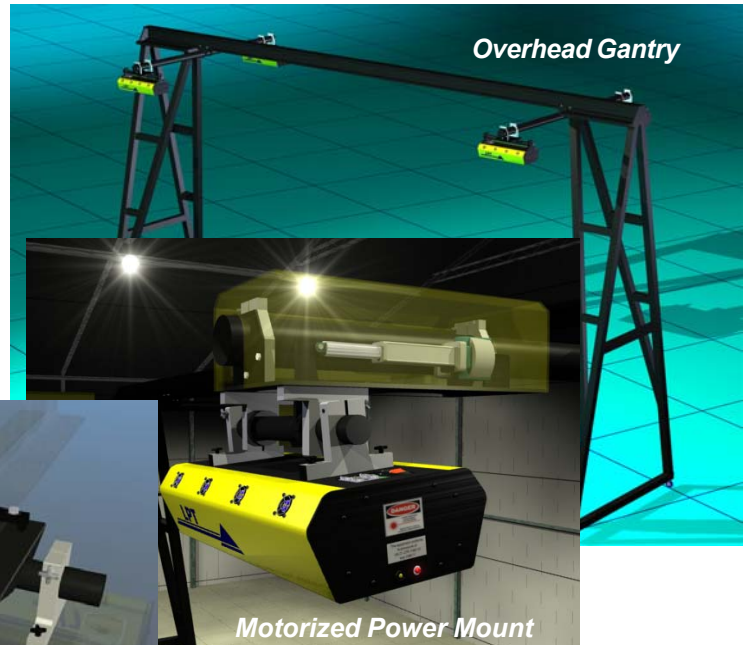

*'I Beam' Mount*

*Portable Stand and Travel Case*

Our **Portable Projector Stand** is designed to allow easy movement of the entire system to various locations within a facility. The collapsible three point locking pads insure a stable platform

*Overhead Gantry*

*Motorized Power Mount*
